WESTOVER'S
POLICIES AND IDEALS

This year marks the thirty-sixth anniversary of the founding of the Westover Nursery Company. During these thirty-six years Westover has proven to the public that there can be no substitute for quality nursery stock and expert knowledge in growing and landscaping. The management of this company has always endeavored to serve its customers to the best of its ability by producing the finest plants in this area.

Each of Westover's many thousands of customers, including Owners of Small Homes and of Large Estates, Park and Cemetery Superintendents, Landscape Architects and Nurserymen, recognizes the high standard of Westover quality.

For the past thirty-six years our policy has been and will continue to be the same. "Every customer must be entirely satisfied with the quality of merchandise and the service he receives as well as the price he pays." Our prices are always competitive and are consistent with the quality and service which we have always endeavored to give.

We cordially invite you to visit our greenhouses and nursery where you may inspect one of the largest collection of plants in this section of the country.

Please Read Carefully

DIRECTIONS FOR ORDERING:—Write name and address plainly and advise time, method and name of carrier servicing destination. Otherwise we will use our best judgment and ship by shortest and safest route.

PRICES: Prices in this catalog cancel all previous lists and quotations and are subject to change without notice. They are accepted subject to prior sale, loss by fire, hail, drought or other causes over which we have no control. Prices are net F. O. B. St. Louis and include delivery St. Louis and adjacent townships. Where shipping is necessary an extra charge for packing will be added at cost.

TERMS:—Cash must accompany all orders unless satisfactory credit has been established with us. When credit is extended, invoice will be mailed on date of shipment and payment must be made on 10th day of month following date of invoice.

GUARANTEE:—We are vitally interested in the success of everything purchased from us. We will cheerfully advise you what, where and when to plant. We will advise you how to care for stock after planting. All products sold by us are of selected quality, and when promptly and properly planted and given ordinary care, should thrive under the severe climatic conditions peculiar to this section, where they are grown.

There are so many causes for failure over which we have no control that we cannot assume full responsibility after stock is delivered in good order. Poor soil, unfavorable weather, ignorant or careless culture, all contribute to failure and are beyond our control.

Our warranty insures the purchaser obtaining healthy vigorous plants true to name. When there is evidence of plants that die having been properly planted and cared for, we will replace any plants that we plant with the exception of Annuals, Perennials, Roses or Greenhouse plants purchased from us that die within one year from date of purchase, at one-half of catalog prices. This offer does not apply to Evergreens planted in tubs or Evergreens planted in smoke area, nor does it apply to lawn work.

Our responsibility ceases after one replacement of original purchase.

WESTOVER NURSERY CO., St. Louis, Mo.

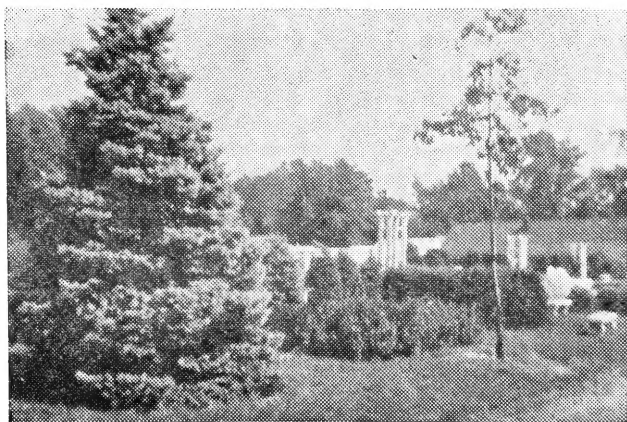

STATE INSPECTION:—The Westover Nursery Co. is inspected at frequent intervals during the year by a State Entomologist of the Department of Agriculture of the State of Missouri, and by a Federal Entomologist. An Inspection Certificate of the Department of Agriculture attesting that our plants are free from injurious insect pest and plant diseases is thus obtained.

We are members of the American Association of Nurserymen; all quotations, prices, contracts and grading are based on **HORTICULTURAL STANDARDS** adopted by this Association.

BALLED AND BURLAPPED PLANTS:—In order that we can increase our service to our customers by extending the season, we recommend the moving of shrubs B&B. The additional charge for this service is based on cost and materials. Our guarantee is the same but with less element of loss to our customers. You actually receive a plant with its own rich soil from the nursery.

BLOOMS FIRST YEAR:—This is another advantage of purchasing shrubs balled and burlapped, as by taking these plants with their roots intact, no cutting back and subsequent loss of bloom buds is experienced from transplanting.

VISITORS ARE WELCOME:—The public is cordially invited to visit our nurseries and greenhouses. Visitors are not annoyed by solicitations of a commercial nature.

WESTOVER LANDSCAPE SERVICE

To create a beautiful landscape requires a knowledge of the principles of landscape design as well as a thorough knowledge of plants, their characteristics and habits of growth. Many factors must be considered, such as adaptability of plants to certain soils and to sun or shade. The height of plants at maturity, the type of foliage, the time and color of bloom are also important to create the best in landscape pictures. Competitive bidding encourages inferior planting and soil preparation, and the use of cheaper varieties usually not suited to the condition, thus producing an inferior landscape.

Every project that we do is distinctive and individual from the selection of plants to their final arrangements, insuring the very best in landscape results. Our landscape service includes the preparation of plans and estimates as well as the construction work and planting for all phases of landscape work.

Millions of dollars are spent every year in the misguided selection and improper arrangement of nursery stock. Our practical planting plans will prevent unnecessary expense and assure harmonious pictures.

A telephone call will bring a representative to your assistance; you will find him both courteous and informative and any time given him will be well spent. Our many years training and experience are always at your disposal.

WESTOVER BRAND LAWN SEEDS

Certified seed under a permit of the State of Missouri Department of Agriculture.

"WESTOVER BRAND" Lawn seeds are the result of years of experience and many tests to determine those varieties of grasses which are best for the St. Louis area. You may choose any one of them with the assurance that they will give maximum satisfaction.

NOTE:—For convenience in ordering all lawn seeds (except clover and bent grass) consult specifications in chart below. It will eliminate all doubt or waste when placing order.

Sufficient for seeding		New Lawn	Old Lawn
1-lb.	"	200 sq. ft.	300 sq. ft.
3-lbs.	"	600 sq. ft.	900 sq. ft.

SCOTTS 4-XD WEED CONTROL

4-XD low cost weed destruction—no fuss, no mixing with water, just use as it comes from package.

This newest development of Scotts Research has same potent chemical as Weed & Feed but without lawn food. Easily broadcast over the lawn by hand or with a spreader, it leaves a trail of dying weeds without harming the grass. For less than a dime, you can kill weeds in a space of 100 square feet—a job that might take an hour of tedious hand digging.
